Army Community Service

Family Advocacy

Family Advocacy

Throughout the year we focus on domestic violence prevention in the Army. Prevention of domestic violence is everyone's responsibility, and can only be successful when everyone helps each day of the year. Knowledge, individual commitment, and our collective sense of community are tools required to enhance the safety, and well-being of our families.

The Family Advocacy Program staff leads the way in preventing domestic violence; success is not possible without the community's participation, and support. Working together within our Army communities we can promote awareness of domestic violence, become more aware of our individual responsibilities to report domestic violence, and by working together, we can make our Army community a safe community.

Every home of the Camp Darby community should be a safe home.
